

RLA-UCON7-IVE

PnP harness to connect an NTSC rear-view camera with RCA connector.

Connects to 52pin connector on rear-side of all-in-one radio.

Rear-view camera must be NTSC.

Suitable for:

Iveco Daily 2019-

Hi-Connect radio

**Citroen Jumper/Relay, Fiat Ducato8 2020-,
Opel Movano 2021-, Peugeot Boxer 2021-,
Uconnect 7 Zoll Daiichi radio**

On Iveco, coding via diagnostics is necessary if not already enabled by the factory.

On Daiichi, connect camera power to ACC (15), as otherwise, the automatic camera detection of the radio might fail.

After installation, it might be required to bring the vehicle to CAN-bus sleep mode for 30 Minutes to detect the connected camera.
